Ramsey Public Education Foundation

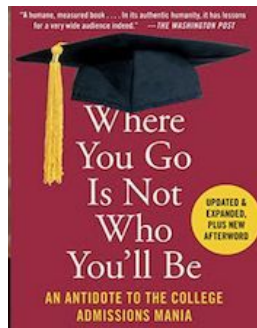

Frank Bruni is coming to Ramsey!

December 5 from 7-8 PM in RHS Auditorium

We are excited to announce that this year the district is partnering with the Ramsey Community School, the Ramsey Public Education Foundation, and the PTOs of all five schools to bring in the New York Times columnist to speak about his best-selling book and answer questions in the high school auditorium on December 5 from 7-8 pm. We hope you find time to read this important book and to join us to hear Frank Bruni speak to the Ramsey community.

About the book

*Over the last few decades, Americans have turned college admissions into a terrifying and occasionally devastating process, preceded by test prep, tutors, all sorts of stratagems, all kinds of rankings, and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no. That belief is wrong. It's cruel. And in *WHERE YOU GO IS NOT WHO YOU'LL BE*, Frank Bruni explains why giving students and their parents a new perspective on this brutal, deeply flawed competition and a path out of the anxiety that it provokes.*

Ramsey Stigma-Free Campaign

The Ramsey Stigma-Free Campaign is a community program, which aims to reduce the stigma associated with mental illness. Through powerful words and actions, we aim to shift the social and systemic barriers for those living with mental health conditions. We are dedicated to raising awareness of the disease of mental illness and creating a culture wherein people who may suffer from a mental health disease feel supported by their community and neighbors to seek treatment without the fear of stigma.

Why Be Stigma-Free?

Approximately 1 in 4 adults are affected by mental illnesses, such as depression, anxiety or alcohol and substance use disorders. Despite the prevalence of mental illness, more than half of people affected will not seek treatment. The primary reason individuals fail to seek the help they need is due to the stigma associated with the disease of mental illness. Such stigmas evoke a sense of shame and fear of judgment from friends, family and co-workers. These stigmas are often based in a lack of knowledge or training. It is our goal to disseminate information and foster a stigma-free environment where people are free from judgment and can get the help and support they need.

Joining the Stigma-Free Initiative will:

- Educate residents that mental illness is a disease and must be treated as such
- Raise awareness of the prevalence of mental illness in our community
- Provoke public interest in learning what is “STIGMA-FREE”
- Providing residents an opportunity to become involved in their community
- Allow people living with the disease to feel supported by their community and thus decrease feelings of isolation and shame
- Link people in need to local mental health resources
- Raise awareness that care is accessible regardless of income
